

THE SLOANE CLUB
CHELSEA LONDON

The Sloane Club clean room promise

Here are some of the things we do to make sure your room is cleaned to the highest standards in the industry:

Surfaces

All surfaces are cleaned thoroughly with our anti-viral cleaning products, with extra focus on high-touch areas such as side tables and desks.

Certified standards

All of our cleaning standards are certified as five star by external health & safety expert Saeker - www.saeker.co.uk

Bathrooms

Our bathrooms are thoroughly cleaned with anti-viral products including tiles, floors and sanitary ware.

The little things

The little things matter too - we wipe down all handles, doors and even our remote controls.

Linen

Our linen undergoes a high temperature cleaning process and is laundered to the highest standards.

Floors

All floors are vacuumed and mopped with disinfectant.

Room seals

We add a room seal to your door once our expert cleaning teams have finished - this way you know that no one else has been in the room.
